Sowell, *Classical Economics Reconsidered* (Thweatt) 575

Thompson, *Adam Smith's Daughters* (Vaughn) 435

Zauberman, *The Mathematical Revolution in Soviet Economics* (Sheehan and Sherman) 436

The Growth of Economic Thought

Henry W. Spiegel

"Henry Spiegel has finally given us his own text on the history of economic thought. . . . In the present volume, we have the fruits of Spiegel's enormous erudition . . . Spiegel treats the student to a veritable panorama of both intellectual breadth and interpretive depth and perceptivity — and superbly written to boot. . . . Spiegel's book will become and remain a leading text in the field." Warren J. Samuels, *Social Science*

"If history ever may be extrapolated with any logical base at all, it would seem that Henry William Spiegel has provided the history of economic thought to end all histories of economic thought." Robert D. Patton, *Journal of Economic History*

"Demonstrates impressive erudition, wise judgment, and catholicity of viewpoint." A. W. Coats, *Kyklos*

"A first-rate undergraduate textbook. . . . The Notes alone justify the purchase of the book by every teacher of the subject." Mark Blaug, *Economica* 816 pp., $16.75
